EDITOR'S tip...

Wall-hung cabinets that lift or slide, rather than opening outwards, will provide easy access to your cabinet interior, and can be left open during their duration of use without becoming obstructive.

This wall run from Sola Kitchen's 'Form 1'

range teams smoked oak with glossy copper. The kitchen, which is also available in burnished brass or stainless steel in place of copper, offers a dynamic mix of texture that's appealing to the eye. Matching dresser and island unit also available. Kitchen from £35,000. solakitchens.com
